Ungdomsforskning

## Schools and educational institutions:

	Spring 2020	Autumn 2020	Winter 2021	Spring 2021
Primary school	Red	Green	Red	Green
Upper secondary etc	Red	Green	Red	Green
University etc.	Red	Green	Red	Red

## Public sphere:

	Spring 2020	Autumn 2020	Winter 2021	Spring 2021
Sports, leisure etc	Red	Green	Red	Green
Restaurant, cafe etc.	Red	Green	Red	Green
Bars, disco etc.	Red	Red	Red	Red

# Response to restrictions

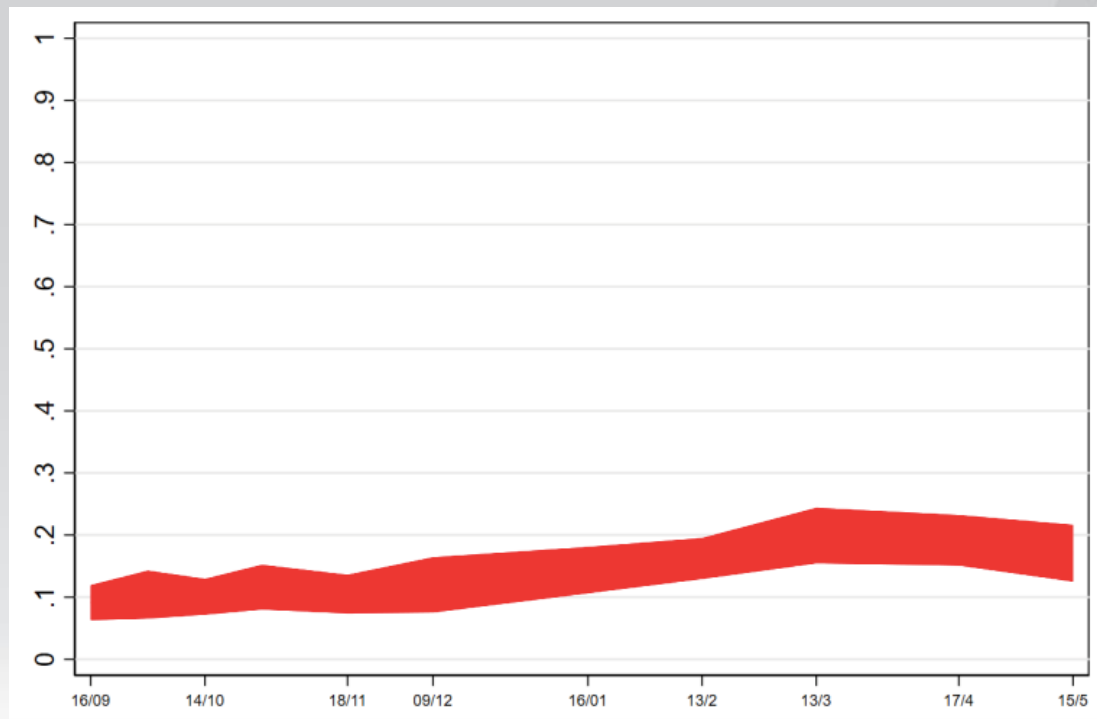

AALBORG  
UNIVERSITET

cefu | Center for  
Ungdomsforskning

Young people has been astonishingly law-abiding!!

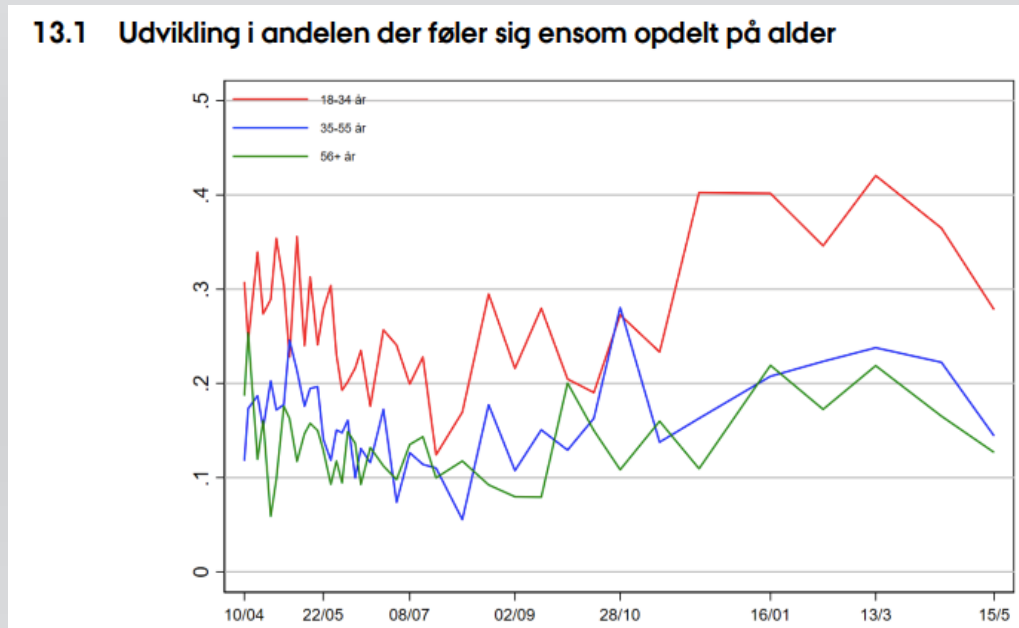

The proportion who do not think they can comply with the restrictions has been stable at 15-20 percent in recent months.

Especially amongst young people (HOPE)

- **Experience of civic spirit** – 42% value that we as a society are looking after each other in times of crisis (UNICEF)
- **Motivation crisis** – related to online teaching, lack of classmate effect
- **Increased social inequality** – less parental support, fewer resources, IT etc .
- **Vulnerable transitions** – targeting young people who have started something new – a new education or school during shutdown (EVA)

- Increased loneliness and decreased well-being

*Development in the proportion who feel lonely divided by age*

*18-34 years*

*35-55 years*

*55+ years*

- Perhaps greater openness about having a hard time

# Narratives about youth and youth bashing

AALBORG  
UNIVERSITET

cefu | Center for  
Ungdomsforskning

- Spring 2020: **Community-minded youth**
- Summer 2020: **Irresponsible partying youth**
- Winter 2021: **The vulnerable youth**
