

## Ben Schneider

I am a historical social scientist of work and wellbeing and a Postdoctoral Research Fellow at the Work Research Institute, Oslo Metropolitan University. I research job-related wellbeing in the past and present, focusing on the effects of technology and disease outbreaks. My PhD at Oxford analyzed the impact of innovation on work from the Industrial Revolution to the 20th century. More broadly, I study the quality of employment—what makes a "good job"—and how to prepare workers, firms, and economies for automation and pandemics.

Before my PhD, I was a Research Associate for the nationally-acclaimed housing assistance organization [Jericho Project](#). I also contributed to the [Freedom on the Move](#) project and helped to compile [American Capitalism: A Reader](#). My CV is available [here](#).

Banner Image: [Coalbrookdale Viaduct](#), Shropshire, UK

# Researchers can improve their visibility

by ensuring that they:

- ✓ Create an effective publishing and communication strategy
- ✓ Maintains their digital identities on relevant platforms
- ✓ Use digital platforms to showcase their work and get noticed
- ✓ Manage research data
- ✓ Use social media effectively
- ✓ Understand research evaluation and the research indicators

# Maintain digital profiles

**We recommend that you maintain your profile on the following platforms:**

- Your 'hub'
- Your profile on OsloMet's website
- Cristin
- ORCID
- Google Scholar (if you are a researcher in the social sciences and humanities)

**Check your name in *key databases*:**

- Scopus (via Scopus ID) \* always log in with your username and password.
- Publons, (Web of Science) \* always log in with username and password.

**If you have time to maintain even more profiles:**

- Academic network platforms (Research Gate, LinkedIn etc)

## Heidi Holmen

**Job title**  
Associate Professor

**Visiting address**  
Pilestredet 32, 0166 Oslo  
Office number: N090.028

**Phone**  
Mobile: +47 905 80 017  
Office: +47 67 23 62 41

**E-m:**  
Heidi

**Affiliation**  
Faculty of Health Sciences  
Department of Nursing and  
Health Promotion  
Head of Studies – Area of  
responsibility 5

From  
the Cris-  
system

### About

In December 2020, Heidi Holmen received a grant from NFR for funding in "Younger research talents" to lead the project "Gathering evidence for evidence-based health technology to support communication in homebased pediatric palliative care – CHIP homeTec" starting August 1. 2021. Furthermore, in 2021 and 2022 she will lead the research related to digital outpatient clinics in the specialist health service in a project led by Dignio together with OUS and UNN in her postdoctoral project. Heidi Holmen is an associate professor at the department for nursing and health promotion. She has her PhD in mobil apps for diabetes self-management (UiO 2017) and a masters in public health (NMBU 2010). Her bachelor is in nursing (Nord university 2006), and she also has a complementary degree in clinical diabetes care.

Her research interests are within health technology and how technology can support people living with long-term or chronic conditions, in both adults and children.

Heidi Holmen is a member of the Young Academy in Norway for the period 2017-2021.

At OsloMet, she is supervising students in the bachelor and masers program.

Diabetes, self-management, mHealth/mobile health, digital health, health technology, children in palliative care, user involvement

**Cristin:**

- is the national system for registering and reporting the research activity of institutions in the institute sector, the health trusts and the university and university college sector.
  - aims to collect information about your research and make this easily accessible.
- 
- Documentation of academic publishing is part of the foundation for the result-based redistribution (RBR) in the research budgets from the Ministry of Education and Research and the Ministry of Health and Care Services.
- 
- Ministry of Education and Research requires all published articles to be open access.
    - Self-archive/deposit your AAM and VoR in Cristin immediately on publishing to ensure compliance. Your entries are checked by the library for copyright compliance.

Each faculty has Cristin contacts who guide the faculty's employees and quality assure registered information.

<https://ansatt.oslomet.no/en/cristin>

The screenshot shows the OSLOMET Employee page for Cristin. The header is orange with the OSLOMET logo on the left, 'Employee' in the center, and 'NO LOG IN' with a user icon on the right. The main content area has a white background. The title 'Cristin' is in a large, bold font. Below the title is a horizontal line, followed by a paragraph explaining that Cristin (Current Research Information SysTem in Norway) documents and makes research visible, and is used to provide data on scientific publications to the Ministry of Education. Below this is the publication date 'Published 19.09.2016' and the latest update date 'Latest update 11.05.2021'. A prominent yellow button with the text 'Log In Cristin' and a right-pointing arrow is centered. Below the button is a list of seven items, each with a yellow plus sign icon and a text label: 'Cristin contacts', 'Registration of research activity', 'Deadlines', 'Dissemination points', 'Authorship, University affiliation and University crediting', 'Dispute bodies for publication data', and 'Publiseringsindikator'.

# Google Scholar profile

- Google Scholar Profiles provide a simple way for authors to showcase their academic publications. You can check who is citing your articles, graph citations over time, and compute several citation metrics.
- Recommended for researchers within arts, humanities and social science as Google Scholar has greater coverage of books and foreign language materials than Scopus and Web of Science.

- > [Research reports \(1\)](#)
- > [Dissemination \(6\)](#)

# Be strategic!

- Get an ORCID - and maintain it
- Connect your online profiles to a main 'hub'
- Decide whether you want a personal and/or professional digital presence
- Use an appropriate picture online (preferably use the same picture on all profiles)
- Maximize the potential of your research profiles to improve your network
- Publish open access (and deposit your articles in open repositories)
- Publish your data along with your research articles
- Share summaries of your research on social media
- Be an expert for funders such as the EU, and the media
- Link to your latest articles in your email signature
- Write guest posts on other people's blogs for more visibility
- Track your online visibility (number of downloads, citations, etc.)

## Academic social networks

### ResearchGate & Academia.edu

- Approximately 5000 members from OsloMet
- More than 6000 publications from OsloMet researchers are mentioned
- 20000 downloads last week

- Not a substitute for making your outputs available in an IR (Cristin/ODA) which is a university and funder requirement.
- A great way to increase visibility.
- Do not upload your publication files directly to these sites. Share links!
- Check the [HowCanIShareIt.com](http://HowCanIShareIt.com)

# ACADEMIA

OsloMet's LinkedIn-profile has more than 70000 followers, and approximately 2000 employees have a profile, and 20000 alumni have a profile.

# Research and innovation support

For researchers, research supervisors and research administrators.
